1.3.1: Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability and other value framework enshrined in Sustainable Development Goals and National Education Policy – 2020 into the Curriculum

DEV SANSKRITI VISHWAVIDYALAYA

1.3.1: Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability and other value framework enshrined in Sustainable Development Goals and National Education Policy – 2020 into the Curriculum

Dev Sanskriti Vishwavidyalaya (DSVV) has successfully integrated cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and other value frameworks enshrined in the **Sustainable Development Goals (SDGs)** and **National Education Policy (NEP) 2020** into its curriculum. This integration is evident in both the academic programs and the overall institutional ethos.

Foundational Philosophy and Vision The university's approach to education is deeply rooted in the vision of its Founder-Patron, **Pt Shriram Sharma Acharya**. His philosophy emphasized the need for a value-based educational institution that could mold students into noble and enlightened human beings characterized by selflessness, compassion, and kindness. DSVV's mission is to unite modern education with moral development, aiming to cultivate well-rounded, competent graduates who possess an understanding of spiritual transformation and are driven to use their skills for the greater good of society.

Curriculum Design and Implementation The university has deliberately designed its curricula to introduce concepts of professional ethics and human values across various disciplines. This integration is not limited to specific courses but is woven throughout the academic programs. For instance:

1. **Professional Ethics:** Courses across departments incorporate elements of professional ethics relevant to their respective fields.
2. **Human Values:** The university offers compulsory courses on Life Management, Ability Enhancement, and Skill Enhancement.
3. **Gender Studies:** With two-thirds of the student population being female, the university naturally promotes gender equality and women's empowerment. This demographic balance translates gender studies from theoretical discussions to practical implementation.

Environmental Sustainability Initiatives DSVV has made significant strides in environmental sustainability, integrating these principles into both its curriculum and campus operations:

1. **Green Campus:** The university boasts a lush green campus, reflecting its commitment to environmental stewardship.

2. **Global Tree Plantation Movements:** Initiatives like **Vriksha Ganga Abhiyan** and **Jal Shuddhi Abhiyan** demonstrate the university's commitment to environmental conservation beyond its campus.
3. **Zero Carbon Footprint:** DSVV has achieved a zero-carbon footprint campus through innovative waste management practices, including recycling and reuse. This achievement has led to ISO certifications in Energy and Environment.

Alignment with SDGs and NEP 2020 DSVV's approach to education aligns closely with several **Sustainable Development Goals**, particularly:

- **SDG 4 (Quality Education):** By providing holistic education that combines academic excellence with moral and ethical development.
- **SDG 5 (Gender Equality):** Through its balanced gender ratio and focus on women's empowerment.
- **SDG 13 (Climate Action) and SDG 15 (Life on Land):** Through its environmental sustainability initiatives and education programs.

The university's curriculum and initiatives also resonate with key aspects of the **National Education Policy 2020**, including:

- Emphasis on holistic and multidisciplinary education.
- Focus on value-based education and ethics.
- Promotion of environmental awareness and sustainability.

Continuous Improvement and Future Directions DSVV employs a continuous evaluation and improvement process for its curricula. To further enhance its commitment to integrating cross-cutting issues, DSVV could consider:

1. Expanding its international collaborations.
2. Developing more interdisciplinary programs.
3. Implementing a formal system to track and measure the impact of its sustainability initiatives.

7.1.5: Green campus Policy

1. Purpose

The University is dedicated to promoting environmental sustainability by encouraging eco-friendly actions and minimizing plastic waste. This policy highlights our commitment to cultivating a green campus and phasing out single-use plastics.

2. Scope

This policy applies to all members of the university, including students, faculty, staff, and visitors, across all university premises and events.

3. Policy Statement

The University strives to:

- Develop a campus that supports environmental sustainability.
- Raise awareness within the university community about sustainability and waste minimization.
- Eradicate the use of single-use plastics on university grounds.

4. Implementation Strategies

A. Green Campus Initiatives

- **Energy Efficiency:** Implement energy-saving measures in university buildings, including the use of LED lighting, energy-efficient devices, and smart thermostats.
- **Sustainable Transportation:** Promote eco-friendly transportation options like public transit, cycling, walking, and carpooling. Install bike racks and offer shuttle services.

- **Waste Reduction:** Introduce a comprehensive recycling program, including composting for organic waste, and provide clearly labeled recycling bins across campus.
- **Green Spaces:** Preserve and expand green spaces, including gardens and tree-planting efforts to enhance campus biodiversity.

B. Plastic-Free Commitment

- **Ban on Single-Use Plastics:** Prohibit the sale and distribution of single-use plastics, such as bags, straws, utensils, and containers on campus.
- **Promotion of Reusables:** Encourage the use of reusable containers, water bottles, and bags. Offer discounts at campus vendors for individuals using their own containers.
- **Educational Campaigns:** Host regular workshops and seminars to raise awareness about plastic pollution and the significance of sustainability.

5. Roles and Responsibilities

- **University Administration:** Oversees policy implementation and allocates resources for sustainability efforts.
- **Sustainability Committee:** Monitors progress, suggests improvements, and reports on sustainability initiatives to the university community.
- **Faculty and Staff:** Expected to integrate sustainability into their daily tasks and support campus initiatives.
- **Students:** Encouraged to participate actively in sustainability programs and adopt environmentally friendly practices.

6. Monitoring and Evaluation

The University will evaluate the success of this policy through:

- Surveys and feedback from the university community.
- Routine audits of campus waste management and recycling practices.
- Regular progress reports from the Sustainability Committee.

7. Compliance

All members of the university community are expected to adhere to this policy. Non-compliance may result in corrective actions or penalties as per university regulations.

8. Review and Amendments

This policy will be reviewed annually and updated as necessary to ensure ongoing effectiveness and alignment with sustainability best practices.

World Earth Day was celebrated by the Department of Environmental Sciences

Campus News

'World Earth Day was celebrated by the Department of Environmental Sciences of the University today. Under these various competitions like poster making, quizzes and speech competitions were organized in the department. All the students of the department enthusiastically participated in these competitions.

Dr Umakant Indolia, Deputy Registrar of the University and Dr Arunesh Parashar, Head of the Department of Tourism Management attended the program as chief guests.
