1. The authenticity of this Stamp Certificate should be verified at "www.shcilestamp.com". Any discrepancy in the details on this Certificate and as available on the website renders it invalid.

metering of rooftop solar power plant and I/We fulfill all the following conditions to install the rooftop solar power plant. In case of breach of any of these conditions we shall be solely liable and responsible:-

1. I/We will fulfill the criteria of Captive Power Plant as defined in the Electricity Rules 2005 notified under The Electricity Act, 2003.
2. I/We will follow the UERC (State Grid Code) Regulations, 2016 as amended from time to time for installation of solar power plant.
3. In the interconnection of solar energy generator with the UPCL's grid, I/We will follow the relevant provisions of the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010/ Safety Rules as specified State Government from time to time shall apply.
4. I/We shall be responsible for safe operation, maintenance and rectification of any defect in the system including the net meter shall rest with the distribution licensee.
5. I/We will be solely responsible for any incidents/accident to human being/ animals whatsoever (fatal/ nonfatal/ departmental/ non-departmental/ damages to material of the licensee) that may occur due to back feeding from the solar plant when the grid supply is off and such consumer shall not only bear the cost of the damages to the material of the licensee but also compensate for the life of any human being/ animals in case of such incidents/accidents. The distribution licensee reserves the right to disconnect the consumer's installation at any time in the event of such exigencies to prevent accident or damage to man and material.
6. The installation of meter in the solar power project will comply with the CEA (Installation and Operation of Meters) Regulations, 2006 as amended from time to time. All the expenditures and charges involved against the purchase of meter, meter testing, switch gear, protection arrangement, grid synchronization etc will be borne by us.
